PROFESSIONAL EXPERIENCE

Deloitte USI : Senior Consultant - Audit and Assurance, Bengaluru [Oct '24 - Present]

- Worked directly with **application owners, process owners, internal audit teams, and internal auditors** on SOX-related initiatives, including walkthroughs, control testing, deficiency evaluation, and remediation validation.
- Secured buy-in from both **business process owners and technology stakeholders** for control enhancements by translating audit findings into clear business impacts, remediation options, and implementation trade-offs, enabling timely adoption of improved access, change, and interface controls
- Presented **risk and control findings, remediation themes, and audit readiness insights** to non-technical business stakeholders through walkthroughs, and management reporting, simplifying complex IT risk concepts into actionable business language.
- Delivered reports and presentations to **senior management and process owners** explaining the impact of ITGC deficiencies, IPE dependencies, and application control gaps on financial reporting and compliance outcomes.
- Facilitated remote coordination between **business, technology, and audit stakeholders across [India/US]**, ensuring timely evidence collection, issue resolution, and status reporting during audit and compliance cycles.
- Audited IT & business processes for SOX 404, SSAE 18, & ICFR assessments to ensure PCAOB/AICPA compliance utilizing **Deloitte methodologies**, identifying process efficiencies for Financial Clients (US).
- Prepared **risk reports, audit summaries, and remediation status updates** for leadership, helping senior management track control gaps, emerging risks, and progress against remediation plans.
- Identified vulnerabilities in systems on Windows OS/AD & MySQL DB through thorough **General IT Controls (GITC) evaluations & testing** across diverse IT platforms, encompassing operating systems, databases, & network infrastructure to fortify system security.
- Provided **presentation sessions** to internal teams on **technology risk, SOX controls, and audit execution**, translating technical control concepts into practical guidance for professionals involved in **testing, risk assessment, and remediation activities**.

KPMG Global Services: Senior IT Auditor- Financial Services, Bengaluru [Jul '23 - Sep '24]

- Conducted 23 SAP IT Audits (SOX & SOC-2) for diverse clients resulting in the identification & implementation of **cost-saving opportunities**, risk mitigation measures, compliance enhancements, & operational efficiencies
- Collaborated with **cross-functional teams across [India/ Germany]** to execute SOX and SOC 2 IT audits, coordinating walkthroughs, evidence requests, testing status, and remediation tracking across multiple time zones in a remote delivery model.
- Directed comprehensive testing of IT Application Controls (Test of Design, Implementation, & Operating effectiveness), IPE, IUC, & Interface Controls utilizing SAP, Workday, & Service Now, including code reviews, **IT General Controls review**, & aspects like Change Management, Access Management, Backup Management, Incident & Problem Management, SDLC, Data Migration, Batch Job scheduling/monitoring, & Business Continuity & Disaster Recovery.

- Performing Risk Assessment, identification, and Evaluation of Controls, prepare process flow diagrams and document in Risk & Control Matrix.
- Successfully planned & executed audits, encompassing Information Security reviews, Information Technology Infrastructure reviews, & Application reviews, to bolster security posture, enhance application functionality, & streamline IT infrastructure efficiency utilizing **ISO standards, NIST framework, COBIT & ITIL practices**
- Coordinated on PMO activities encompassing planning, budgeting, staffing, & scoping on Engagements, resulting in a **20% boost in project efficiency**

IBM India Private Limited: Package Specialist, Bengaluru [May '21 - Jul '23]

- Designed SAP Security & Authorization profiles/roles using Profile Generator (**PFCG**), conducted testing, managed user administration, & troubleshooted authorization issues for ECC, S/4 including SAP HANA & SAP Fiori modules.
- Leveraged Basis & ABAP expertise in managing Support pack/SAP note implementation, Transport Management, OSS Connections, & handling **Parameter & RFC configurations** to enhance system stability
- Utilized internal audit software, SoD compliance tools, & Risk assessment software to conduct User & Role analysis, identifying & resolving 50 SoD violations, resulting in a 30% reduction in violations & a 20% increase in compliance
- Contributed to internal team planning activities including identifying risk and changes to business and risk assessment.
- Experienced with SAP full life cycle end-to-end implementations, upgrades, and support projects in SAP BW/BI and BW/4HANA.
- Facilitated internal learning sessions for **cross-functional audit and risk teams on technology risk and control frameworks**, strengthening team capability in **SOX scoping, control evaluation, evidence requirements, and stakeholder communication**.

Talknlock private Limited: Consultant, Remote [Mar '20 - Apr '21]

- Played a pivotal role in spearheading special projects focused on enhancing **process improvements, system implementations, & security measures**, resulting in strengthened security practices & heightened system effectiveness.
- Identified client needs, provided initial solutions, and Collaborated with cross-teams to deliver actionable recommendations.

EDUCATION

Bachelor of Technology - Information Technology, Jaipur Engineering College and Research Centre [Aug '16 - Sep '20]
